## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 49 is rejected under 35 U.S.C. 102(b) as being anticipated by Renner et al. (6,317,161).

Regarding claim 49, Renner shows an input portion (26) and an output portion (2).

### ***Allowable Subject Matter***

3. Claims 1-48 are allowed.

### ***Response to Arguments***

4. Applicant's arguments filed 6/14/06 have been fully considered but they are not persuasive.

In considering applicant's argument that Renner does not disclose or suggest the features of claim 49 wherein the phase error is based on a combination of a coarse phase error and a fine phase error, the Examiner disagrees. In col. 7, lines 15-18, Renner states that the sum from adder 60 is written by microprocessor 2 of FIG. 1 to increment block 12 of DTO 6 of FIG. 1 and this serves as the DTO coarse adjustment increment. In addition, in col. 9, lines 58-62, Renner states that summer 102 adds...to

produce an actual DTO increment (DTO inc) which is written to increment block 12 of FIG. 1. In other words, the incrementing values in increment block 12 increments in response to both the coarse and fine phase errors. The increment value clearly represents the result of a combination of the coarse phase error and the fine phase error. Hence, interpreted broadly, Renner still meets the claimed invention.

***Conclusion***

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
